INTRODUCTION

Cyberpro

is a born in the cloud company that focuses on cloud, hybrid and

on-premise IT solutions that enable business.

This includes Datacentre, Cyber Security & Cloud products and solutions.

VALUES

Cyberpro stands by the following values:

VISION & MISSION

VISION

To be a world class service provider who provides accurate and sufficient information to our clients in order for them to make informed decisions on what they require to solve their business problems and fill in the gaps as to what is required in their environments.

MISSION

To be the preferred supplier of products and solutions into our emerging markets growing from South Africa into the rest of Africa.
We believe our continent needs our expertise to enhance their ICT environment in order to enable business to function more efficiently and securely.

ABOUT US

We are a ***Born In The Cloud*** company that focuses on cloud, hybrid and on premise IT solutions that enable optimal business operations - these include Datacentre, Cyber Security & Cloud products and solutions.

We are a Level 1 BEE company and our clients enjoy the benefit of our excellent Preferential Procurement rates in all their spend with us.

We provide local support by a team of highly skilled & qualified individuals within predetermined Service Level Agreement contracts.

Our staff are constantly updating their knowledge by attending webinars and enablement sessions with various leading global vendors keeping us at the forefront of technology as it evolves.

SERVICES

CLOUD SOLUTIONS

The cloud computing pile consists of three services:
IaaS (Infrastructure as a Service)
PaaS (Platform as a Service)
SaaS (Software as a Service) inclusive of **Microsoft Azure and Microsoft Office 365 features**

NETWORK DESIGN & AUDITS

Cyberpro can design and implement a network that's specific to your needs. To design an efficient, cost effective and suitable network for you we start with a thorough IT audit. Before we design your network, we ensure that anything we implement is compatible with your current infrastructure and operating practices.
We will outline your options allowing you to prioritize cost, speed and capacity in line with your business objectives.

MANAGED INFRASTRUCTURE SERVICES

We develop customer centric outsources solutions for our customers. These include managing the various parts of a customer's infrastructure to provide a fully managed IT services solution.
Cyberpro provides customers with an all-encompassing IT management solution with a single point of responsibility and accountability.

SERVICES

CYBER SECURITY

- **Endpoint Security inclusive of *Risk Management & Training & Awareness***
- **Network Security**

Cyberpro has partnered with industry leaders in the security space to provide the best available protection to our clients. We have key relationships with security vendors that can provide a holistic security solution to the customer.

RISK MANAGEMENT

Law and Industry mandates require organisations to assess vulnerabilities and risks. Organisations must be conscious of information security and develop and implement mature security controls based on a continuous internal risk and vulnerability assessment
